The Work of the Detective.

It is generally known about town that one morning last week, perhaps Sunday morning—Mr. Jas. T. Page and Mr. W. R. Myers received each an anonymous letter. They contained threats of death, destruction of property, etc., if they failed to comply with suggestion laid down by the writer—that Mr. Page remove some tenants occupying the old hotel building, claiming that they were running a disreputable house. The letters annoyed Mr. Page, who consulted his tenants, and it was agreed to employ a detective and see if the author of the letters could be run down.

Accordingly Mr. John M. Loran, who belongs to a Louisville Agency, was employed, and he arrived last Wednesday afternoon and went to work on the case. After he read the letters he secured the hand writing of several parties with the view of comparing same to that of the writing that had been anonymously done. He worked on the case until Friday morning leaving for Louisville at 10 o'clock. Before starting he informed a News man that he was satisfied as to who wrote the two letters in question, but he could not state further, as the letters and the specimens of handwriting in his possession would have to go before the board at Louisville for final decision. He further stated that early in this week he would either send a written report or he would come and bring it.

Whose Business Is It?

The development of this town is no one man's duty.

Nor is it the duty of any one group of its people.

The individual must not hesitate to start the work.

His neighbor must not hesitate to help it along.

Neither will one element alone be benefitted thereby.

It is the interest of all, and the business of all.

One man may originate, but all men must execute.

The first duty of such is to enlist the aid of all.

The duty of all is to promote the interest of each.—Ex.

New Millinery Goods.

I have just received a complete line of New and Up-to-date Millinery Goods which are now open for your inspection and which I will sell at prices that will save you something. Call early while stock is complete.

Mrs. H. W. Wilson.

Cane Valley, Ky.

Gowen-Coomer

Squire T. F. Gowen was in town last Friday and procured license to marry Mrs. Mary Coomer. The ceremony took place at the bride's home, near Nell, this county. They will reside on the Squires farm, near Gradyville. The groom is 71, the bride 61. This is the third venture for both the bride and groom.

Several parties have been before the Court in the last ten days, charged with overindulgence, so to speak, in intoxicants. They were all acquitted, but it was certainly humiliating to them to be before the Court on such a charge. Boys, the sober minded people of Columbia are your friends, and will be ready to assist you in any legitimate undertaking as soon as you convince them that you have quit your evil habits, and are ready to show the people that you are men.

For Sale.

Good, loose hay, 80 cents per hundred. W. C. Grider. 20-21.

Mr. Newton Atwell, of this town, was arrested last week, charged with selling liquor. He was given a trial before Judge Herrford and the jury fined him seventy-five dollars and gave him twenty-five days in jail. The officers of this town are determined to put a stop to the unlawful sale of the ardent.

From notices we have seen in the papers throughout the country, the prospects for a wheat crop are the best in many years. The State of Kansas claims it will harvest one hundred million bushels.

Snow on the ground to the depth of five inches last Friday morning. It was fine on the growing wheat crop.

What the farmer is mostly interested in at this time is a few weeks of good weather. Three weeks of decent weather and the corn crop will be planted.

In Memory of Bro. L. A. Flether, Glensfork Lodge, No 528, F. & A. M., Who died March 15th, 1914.

Once again a Brother Mason, having completed the designs laid out for him on life's tressle board, has passed through the portals of eternity and entered the Grand Lodge of the New Jerusalem and has received as his last reward the white stone, with the new name written thereon; and,

Whereas: In his death this Lodge has lost a true and faithful member, his home a kind and loving father and grandfather, and his community a good neighbor and citizen. Therefore be it,

Resolved: That we extend to the family our sincere sympathy in their sad hour of bereavement and that a copy of these resolutions be spread upon the minutes of our Lodge and a copy sent the family and one to the Adair County News for publication.

District Convention.

The Fourth District Convention, comprising the counties of Adair, Russell, Casey, and Wayne, will be held in Columbia, beginning on Friday evening before the first Sunday in June, holding over to Sunday evening. The program will appear in due time.

Four departments of Christian work will be represented—The District Evangelistic, the State Bible School Work, the State Evangelistic Work, Mrs. Campbell, State Secretary, of Lexington, Ky., will represent the Christian Woman's Board of Missions.

Millinery Opening

Tuesday, Mch., 31st. All my friends and customers are cordially invited to come and inspect my spring and summer stock. Latest designs in hats, novelties in trimmings—every thing new and up to date.

Mrs. L. W. Atkins.

Public Sale.

As the Administrator of the estate of W. A. Helm deceased, I will on Saturday the 4th day of April, 1914, offer for sale to the highest and best bidder, at public outcry, the personal property of said decedent, which consist of all the tools, machinery and stock of materials in the machine shop located near the town of Columbia, Ky., being the same which was operated by said Helm before his death. This property will be sold on a credit of six months, purchaser will be required to execute bond with good security for the purchase price, and bearing interest from date until paid at the rate of six per cent per annum. The sale will take place at 10 o'clock on said day at said place.

F. J. Banger, Admr.

Grades 4 and 5 Entertain.

On Friday, last, grades four and five of the Graded School gave a "Mothers' Reception" to their mothers and friends. The room was beautifully decorated with yellow jonquils and a display of the children's work.

Hot chocolate and wafers were served by Miss Heyd, who was assisted in serving by Misses Lettie and Loreta Danbar, Creel Nell, and Cary Rosenfield.

S. C. White Leghorn Eggs for hatching, 15 for 75 cents. If by Parcel Post 6 cents each. They are the hens that lay and don't lie. 21-22.

J. O. Russell.

The Courier-Journal and Times have a very industrious correspondent at Greensburg. He takes items from the Adair County News, wires them in as fresh news, when in fact, they had been read in this part of the State eight or ten days before they appeared in the dailies. If the State editors of these metropolitan papers would read the country weeklies, they would catch on to the doings of certain correspondents.

Eggs for Sale.

Barred Plymouth Rock eggs, 15 for 50 cents. I have 56 pure bred hens, no other breed of chickens. J. M. Kearns, Ozark, Ky. 19-31.

Eld. W. L. Smith, of Albany, Ky., a grand son of John Smith, one of the pioneers of the Restoration movement, known as "Raccoon John," will preach at Glenville on Saturday night before the fifth Sunday in this month. He will also preach at Pleasant Hill on Sunday morning at 11 o'clock.

Gradyville.

Mrs. Millie Hill is in Louisville this week looking after millinery goods.

The biggest snow of the season came Thursday night.

Mr. John Holladay and son, of Columbia, were in our midst one day last week.

Mr. A. T. Sherrill is very low at this time. If there is not a change he can not last but a few days.

Mr. Lewis Caldwell, of Miami, was in this community last week on business.

Mr. Willie Walker, of the L. W. T. S., of Columbia, called in to see us while en route for Nell last Friday.

Mr. Robert O. Keltner spent one day in Columbia last week on business.

Uncle John Moore, who has been confined to his room for several weeks, is thought to be improving at this time.

Nat Walker spent last Saturday and Sunday in Columbia.

Mr. James Sanders in company with J. A. Diddle spent a day or so in Green county last week.

Mr. E. N. Whitlock, one of the successful farmers of Bliss, sold his farm in Green county last week. Price not known.

Mr. Ed Dohoney, of Green county, visited his mother, Mrs. Parson, here a day or so of last week.

Nell & Simmons new office will be completed in the near future. When completed will be a very commodious building and will add to the looks of our town.

Our mill man, Mr. Alfred Parson informed us that he would have in a full supply of wheat and corn just in a few days and could accommodate our people with plenty of bread.

Messrs. McKinney & Bishop, who are engaged in the saw mill business, near this place, and have a large amount of timber to saw this year, have recently purchased a new boiler and when they receive their new mill supplies will be ready to do a much larger business and give more hands employment. There is in this community at this time four or five saw mills, running regular, and we are glad to say right at this particular time, our laboring class of people need the proceeds of their labor as bad as they ever did in their lives.

Messrs. Flowers and Keen, one of our efficient firms, will in the near future put a new metal roof on their business house and by so doing the Masonic hall will also receive a new roof.

We are glad to note that Mrs. Squire Kemp, who has been confined to her room for several weeks, with a complication of diseases, has about recovered.

Miss Ora Moss, who taught a very interesting and successful school, at the residence of Mr. R. L. Caldwell's in the Milltown community, closed her school last week.

Uncle Jack Gowen, the successful merchant, of Basil, lost a very valuable mare with distemper. We understand the disease is very bad in that community and several head of mules and horses are in a fearful condition.

There is quite a demand in this section for milch cattle. No man has done more to furnish the people than Mr. J. H. Smith. While he has sold two or three carloads, it is nearly a daily occurrence that we hear the call for a good milch cow regardless of the price.

The Louisville Conference Sunday-School Institute will be held at Central City April 2nd and 3rd. Every pastor and Sunday-School Superintendent is a delegate. Each Sunday-School is entitled to one delegate aside from the pastor and Superintendent.

The fate of the Banquet to be given by the Modern Woodmen of Columbia Camp No. 12502, as reported in last week's issue of the News, in honor of the 4th anniversary of the organization of the order, at this place, has been changed from Saturday night, April 4th to Friday night April 3rd.

We are informed that Hon. Robt. Antle and Hon. Lilburn Phelps have returned to their homes in Jamestown, glad to get away from Frankfort. They state that they were not pleased with a number of bills that have become laws, but they were powerless. There is one thing that is creditable to the Kentucky Legislature. The body did not vote any large appropriations.

The Ladies' Aid Society of the Presbyterian Church will meet with Miss Octavia Reed Thursday afternoon, March 26th at 2:30. All members are requested to be present.

Glensfork.

Several of J. W. Marshall's family have measles.

Born, to the wife of Basil Chapman on March 3rd, a son.

Mr. W. P. Phelps remains very low.

Mr. Z. L. Samuels' who fell and broke his thigh bone some time ago, is mending slowly.

Dr. Wm. Blair's condition remains unchanged.

Mr. Eli Grant, who has been boarding with Charlie Collins, in the Flatwoods for several months, has returned to his residence at this place and is again housekeeping. Mr. Grant is an invalid and has the peculiar habit of hibernating during the winter months. It is said that he has been confined to his room every winter save one for 21 years.

We understand that Hugh Richardson will begin to erect the buildings for his roller mill at this place at an early date. Nothing could be more helpful to the people of this section than a roller mill at this place, and when it goes into operation it should receive a liberal patronage from the people of this section.

J. J. Dudley, who was seriously hurt by being struck on his breast by limb from a falling tree, is about well again.

The little daughter of Basil Chapman, that has been very low with pneumonia, is much better at this writing.

Spring Opening.

If you will visit, Mrs. Geo. Staples' Millinery Parlors, Tuesday March 31st. You will find on display all that is new and up-to-date in spring and summer millinery.

PIANIST, LISTEN!

At King Baggot Rag.

(BY G. W. LOWE.)

A real rag, a real hit, a real idea, a real melody. That's all. Send for it. Price, net 25c per copy. Address, G. W. Lowe, Columbia, Ky.

Mill For Sale.

Forty barrel Flour Mill in good grain section and good town, well located near Public Square, in good repair, good trade. Will sell at bargain or exchange for good property. Reason for selling, bad health. For particulars address

18-41. STOKES BROS., Monticello, Ky.

Mr. A. W. Tarter, of this town, informs The News that his son Waller, whose time expired in the Standing Army, last Saturday, has reenlisted for a period of seven years with the avowed purpose of being a party to the thrashing of the Mexicans. He is now stationed on the Texas and Mexico border and his appetite has been whetted for a fight. Pete Turner, who enlisted at the same time arrived home Monday preferring civil life to the chances of war.

A tenant house belonging to Dr. U. L. Taylor, which was located on the back end of his garden, was destroyed by fire last Monday morning. It was being occupied by Jo Taylor, of color. Most of the household goods were saved. The burning of the house was a small loss to Dr. Taylor. The origin of the fire was a defective flue. Property owners in the neighborhood desire to thank the fighters of the fire for their heroic efforts in saving their buildings.

We would be pleased to send the Daily State Journal, Frankfort, from now until the first of April for 50 cents. Or better still we will furnish the Adair County News, one year and the Daily State Journal until April 1st for \$1.25. If you want to keep in touch with the doings at Frankfort while the Legislature is in session, you should have the State Journal.

Wanted.

Black jack spoke timber will pay on our yard in Columbia, \$20 per 1000, size 2 1/2 in. on heart, 3 in. deep and 30 in. long. The Adair Spoke Co. 19-26.

Born, to the wife of Dr. J. N. Murrell, the 20th inst, a daughter, weight, 10 pounds.

Field Day at Lindsey-Wilson Camp, Friday, May 8.

Born, March 14, to the wife of Geo. T. Flowers, Jr., a daughter.—Willie Thomas.

BIG OIL MEN WERE HERE.

Prominent Geologists and Big Operator Made an Investigation of the Field.

Nevada people who have been watching the oil developments and hoping to see oil found in Vernon county will be both surprised and pleased to learn that one of the biggest oil operators and one of the most prominent geologists in the country have been here this week looking over the Vernon county field.

The geologist, Prof. John W. Ottley, of Columbia, Ky., has located the greatest fields known. Several years ago he made a favorable report on this field and while he has not prepared his report as to what he has found here at this time the general opinion is that the report will be a favorable one.—Vernon County, Missouri Daily.

Eggs for Hatching

Pure bred White Plymouth Rocks—"Pishell" strain, white as snow. Price, Pen No. 1—\$1.50 for 15 eggs. Pen No. 2—1.00 for 15 eggs. Pen No. 3—.50c for 15 eggs. Indian Runner duck eggs 65c. for 13 eggs.

Will send by Parcel Post for 10 cents extra.

Stomach Health or no Cost to You

Very likely others have advised you to use Rexall Dyspepsia Tablets, because scores of people in this community believe them the best remedy ever made for Dyspepsia and Indigestion. That is what we think, too, because we know what they have done for others and what they are made of. We have so much faith in them that we urge you to buy them at our risk. If they don't help you, they won't cost you a cent. If they don't do all that you want them to do—if they don't restore your stomach to health and make your digestion easy—just tell us and we will give back your money without a word or question.

Containing Pepsin and Bismuth, two of the greatest digestive aids known to medical science, they soothe the inflamed stomach lining, help in the secretion of gastric juice, check heartburn and distress, promote regular bowel action, and make it whenever you like, with the comforting assurance that there will be no bad after effects. We believe them to be the best remedy made for dyspepsia and indigestion. Sold only at the more than 7,000 Rexall Stores and in this town only at our store. Three sizes: 25c, 50c and \$1.00 at Paul Drug Co.

Pure Bred Eggs For Sale.

White Wyandott's 75 cents for 15; Buff Leghorns 50 cents for 15. J. A. Williams, Montpelier, Ky. 19-31.

Change at the Cumberland.

Mr. Bruce Taylor, who has had charge of the Cumberland Grocery Company, this place, for the past eighteen months, has tendered his resignation, ill health prompting his action. He has been succeeded by Mr. A. D. Patteson, former sheriff of the county, who is a good business man, and who is well-known in all the adjoining counties. Mr. Taylor was popular with the trade, and regretted that he was physically unable to give the business the attention it required. We believe that with Mr. Patteson as manager, the house will continue to prosper.

Last Thursday was the most disagreeable day of the winter. Asticky snow commenced to fall about 10 o'clock, and continued until after night fall. The wind was high and penetrating. It was not only a rough day to the human family, but stock, horses, cattle and sheep, not housed, suffered.

Mrs. W. W. Jones has a very fine yard of chickens, extra good stock. The week ending last Sunday week she gathered 396 eggs and on Sunday 89 of this number.

Mrs. Geo. Staples will raze her old residence, on Burkesville street, to be replaced by a new one. The work will commence soon.

Eld. Tobias Huffaker will preach at Hutchison school house next Sunday at 11 o'clock, a. m.

The detective has come and gone. Are you satisfied?

Café Meeting.

All Modern Woodmen in good standing are requested to be at the hall next Saturday night, March 28th. The Camp is called for degree work. Be at the Hall early.

W. T. Ottley, Consul.
J. C. Strange, Clerk.

Special Instructions to Teachers.

We are anxious to get a strictly accurate census this year. Trustees will please do their best to see that every child is listed, that no child is listed twice, and that no child is listed who is not of school age. All children who will be six on or before the first day of July, 1914, should be listed. All children who be twenty on or before the first day of July, 1914, must not be listed, while all who will be twenty after the first day of July must be listed. List only those children who were in the district on the first day of April, unless parent or guardian receive statement in writing from the trustee of the district from which he has removed to the effect that he was not listed there and will not be so listed this year. Give each parent or guardian where there is a child or children of school age one of the yellow sheets from the census pad and have the parent or guardian to fill it out and sign to himself. In case the parent or guardian and his wife are both unable to write, the trustee may fill out the blank and sign the parent's name, requiring the parent or guardian to make his mark in presence of a witness. If there be any child in the family between the ages of 10 and 20 unable to read and write, a check mark should be placed opposite his name in the column designated on the sheet for that purpose. These yellow sheets must be collected and the names of parents and children copied on the double leaf white sheets. When this is done if there are any illiterates between the ages of ten and twenty, their names and ages together with those of the parents or guardians must be copied on the single leaf white sheet for illiterate children. If there are any children who have completed the Eighth Grade, or been promoted to High School, their names and ages must be copied on the single leaf sheet together with names of parents. Also names of those attending High School, or private school outside of district.

Two copies of the census must be made by each trustee, one to be filed with the Superintendent and the other with the County Clerk. The duplicate copy does not include the separate list of illiterates, and high school pupils, as but one sheet is furnished for that purpose.

The list must be taken in April, and all reports must be in by the first of May. They may be turned in to the Superintendent at any time during the month of April. Trustees will please study the instructions on the blanks carefully and strive to do the work neatly and accurately.

Tobias Huffaker, Supt.

Don't forget to meet me in my millinery parlors Tuesday, Mch., 31st. Mrs. Geo. Staples.

We have been sending out statements to all parties who are behind at this office, and we trust that our request will meet with prompt responses. We have been indulgent, you have received the papers and we feel that you are willing to pay for same.

Note of Warning.

From recent developments evidently some people think they take no risk in bringing a friend a bottle of whisky from some place where it is being sold legally, and delivering the same to a party in a local option territory, the latter having sent the money to pay for same. Such delivery is unlawful, and is denominated a sale by the party who delivers the goods. If you do not want to get into trouble have nothing whatever to do with the whisky business.

For Sale.

One 15 1/2 hand mare mule, 8 years old, well broken, good style. A. C. Wheeler, Knifley, Ky. 19-11.

H. B. Ingram has a very fine Jack at his barn in Columbia. For Particulars see large bills.

Spring opening at Russell & Co's. next Friday and Saturday. See their ad. Music will be furnished during the days.

Makes Healthy Bowels

THIS simple rule of health is daily called attention to by every doctor in the land, whose first question to the patient almost invariably is, "Are your bowels regular?" Yet there's not one person in fifty who takes proper care of the bowels. And the result of this foolish neglect is nine-tenths of all ill-health.

If today you are unable to free your body of waste matter at the usual time, or if the act causes straining, pains and discomfort, don't let that condition occur again tomorrow. Unless your bowels can carry away the waste materials left after food is digested, decay sets in, the poisons of which, taken up by the blood, increase the risk of Typhoid Fever, Appendicitis, and many other serious diseases.

In treating constipation, there is a right way and a wrong way. The wrong way is to take harsh purgatives which even though they do clear the bowels, cause griping and nausea, injure the delicate tissues, and so disturb the normal functions as to cause the return of constipation. The right way is to help Nature to produce natural movement, without pain or discomfort, by using

Rexall Orderlies

More Than One Hundred Million Were Sold Last Year

This enormous quantity was used with good results by busy men who suffered from constipation, due to lack of exercise, or indigestion caused by overwork—by children whose parents realize the harmful effect of common purgatives—by old people whose systems cannot stand anything harsh—by women during pregnancy, and after childbirth, when any medicine with a violent action would be particularly dangerous. Many of these people are your neighbors and friends. Ask anyone who has ever used them—they'll tell you Rexall Orderlies satisfied and helped them.

—a gentle laxative in the form of a chocolate-tasting tablet. One of these tablets eaten just before going to bed will help to restore your bowels to normal activity at a time when, your body being at rest, the medicine can do its best work. As a result of taking that tablet (or say two, if your case is obstinate), your bowels will move easily and naturally in the morning. The use of Rexall Orderlies for a few days afterward will restore normal regularity. Even chronic constipation is benefited by them, and it is not necessary to continue the treatment for a long time, because, instead of driving Nature, they simply help her to help herself.

Sold only at the more than 7,000 Rexall Stores and in this town only by us. Invest packet tin boxes, 10c, 25c, 50c

This Is Our Guarantee—You Risk No Money

If Rexall Orderlies do not make your bowels act right, tell us so and we'll give back your money without asking a single question. There is no red tape to this guarantee. It means just what it says. You sign nothing. We won't hesitate, or ask you any questions. Your word is enough. If Rexall Orderlies do not do all you expect them to—if you don't feel better after using them and find that they are the pleasantest-acting and best laxative you have ever used, we want you to tell us and get your money back.

On Feed and Care of the White Faced Black Spanish Chickens.

(By Mrs. A. T. Harmon.)

Editor News:

Kind Sir.—I have been asked by one of your residents for an article on "How to feed and raise" White Faced Black Spanish chickens.

Much has been said on feeding and raising of small chicks. The subject really still exists to some extent unmastered by many. The fault, however, is not altogether in the little chicks every time, but to the person doing the feeding. Many small chicks are killed yearly by being over fed. How much and how often, and what to feed is probably the most difficult problem in chick raising. No hard and past rule can be given, as no two persons will feed alike, and no two broods of chicks will do the same under similar conditions. Methods of feeding can be given that will give good results if applied to conditions as they are met.

The little White Faced Black Spanish chicks are hearty little creatures, and are very easily raised and grow rapidly.

For the first feed, which is given when chicks are between 24 and 36 hours old, is a freshly baked biscuit soaked in fresh sweet milk and squeezed very tightly, avoiding all sloppy foods.

This being sprinkled with fine sand is given the little chicks about every two hours, just a small portion at the time, thus feeding about 5 times each day, being very careful not to give too much at each feed. The second week we begin feeding steel cut oats scattered in litter for the little fellows to work at which is a great factor towards keeping healthy birds. We prefer rearing chicks in brooders, but yet we have some hens to assist when there is lack of brooder room. We also use some corn during summer, but in very limited amounts. For the first drink and for several days we use fresh skimmed milk, the fresher the better. Be sure to avoid letting stand in vessels to sour.

Girl Forgets and Weds.

Twenty years ago Joseph Hart left his home in Pittsburg to seek a fortune so he might marry the girl he loved. She refused to consent to a marriage at that time because Hart was not rich, but agreed to await his return. Eighteen years ago Hart struck it lucky in the West. In a few years he amassed a fortune, but waited until a few weeks ago to return to the East and claim the sweetheart of his youth.

When Hart arrived in Pittsburg he sought out the Point district, where the two had liv-

ed, and learned the girl had been married nearly 19 years. Broken-hearted, Hart declared it was evidently a case of "out of sight out of mind" with her. He insists there is nothing for him to do but return to the West and try to forget.

HART STAKES MINER; LUCK TURNS For two years after he left Pittsburg Hart traveled about the West, having more or less success, mostly less. Hearing of wonderful fortunes to be made in the mining districts of New Mexico, he bought a small tract at Vera Miza. There he staked an American miner, named Richardson, who was down and out. But for this stroke of luck Hart admits he might have returned to Pittsburg a poor man.

"In December, 1911," says Hart, "I was in Denver, Colo., with but a few dollars in my pockets. I recognized Richardson, the man I had befriended. He looked prosperous and told me he had hit it rich. He said the money I loaned him had given him a start and invited me to go to the rich field near Cuatro, Arizona.

I worked a year with Richardson and laid aside \$5,000. With this I bought a mine. To-day I have more money than would have been required to keep me and my youthful sweetheart all our lives, but now I'll have to go back West alone and try hard to forget."

How They Sleep

The American or European. In order to get a good night's rest, ordinarily requires a soft pillow on which to lay his head; but the Japanese if he wants to be comfortable, stretches himself on a rush mat on the floor, and puts a hard square block of wood under his head. The Chinaman, too, refuses to make his bed more comfortable than the use of rush mats will permit, though in the choice of bedsteads he shows considerable taste, the carving on many found in China being really exquisite.

The Farmer.

Farmers are the decided producers of the world. The farmer is the most independent man in society, has the fewest perplexing reverses, and the greatest per cent of success—the least cause for worry and fretting. It is true that he may worry, predict droughts and many, many disasters, do much to annoy himself, if he chooses, but no one has less occasion for such. No business is any surer of yielding a fair return for any expenditures of labor and general outlays. Yet how many turn and

look with longing eyes at the merchant and almost envy his calling, and sometimes selling the old farm home to invest the proceeds in goods, presuming great pains will follow while the burdens and heat of the days will be unknown; but remember that ninety-eight of the merchants fail, at least once during their career; some many times, particularly those who intend to make money without any regard for principles. Mercantile life is but little than a constant round of care, perplexity, anxiety, with almost a constant expectation of sad reverses, in connection with financial crises.

In that land of light and beauty,
There is a mansion bright for thee.

Still I hear the angel voices,
Chiming o'er the crystal sea,
In those pearly mansions yonder,
There is a harp laid up for thee.

A land of rest to him is given,
A home so bright and fair,
Amidst the shining courts of Heaven,

To dwell forever there.
Oh! may I join that chair invisible,

Of those immortal dead who live again,
Then I shall see him face to face,
And tell the story, "saved by grace."

Bananas as Food.

The banana may be regarded as a wholesome food and, though growing in popularity, is still underestimated in American households. The banana consists, in its green state, largely of starch and water. The essential change during the process of ripening is a conversion of the starch into sugar. The rate of ripening is dependent on the temperature. The edible portion of each fruit is packed away in a peel, which serves a more useful purpose than has hitherto been realized. Experiments on the fruit in different stages show that the inner portions of the pulp of sound bananas are practically sterile. The peel is singularly resistant to invasion by bacteria. Even when bananas were immersed in fluids containing disease germs, the germs did not penetrate into the interior. The probability of infection through the peel is therefore slight, though germs on the peel might be transferred to the consumer's fingers and thence to the mouth. This is an interesting example of a food delivered by nature in practically sterile passages. Nature's wholesome service should not be undone by careless methods of marketing such foods.

The Mothers' Favorite.

A cough medicine for children should be harmless. It should be pleasant to take. It should be effective. Chamberlain's Cough Remedy is all of this and is the mother's favorite everywhere. For sale by Paull Drug Co. Ad

When Good-bye is Said.

A writer describing the different methods by which various nations say "good-bye," tells us:

The Turk will solemnly cross his hands upon his breast and make a profound obeisance when he bids you farewell.

The genial Jap will take his slipper off as you depart, and say with a smile: "You are going to leave my despicable house in your honorable journeying. I regard thee!"

The Fiji Islanders cross two red feathers. The natives of New Guinea exchange chocolate. The Burmese bend low and say, "Hib Hib!"

The Cuban would consider his good-bye anything but a cordial one unless he was given a cigar. The South Sea Islanders rattle each other's whale-teeth necklaces.

The Sioux and the Blackfoot will at parting dig their spears in the earth as a sign of confidence and esteem. This is the origin of the term, "Burying the tomahawk."

The Russian form of parting salutation is brief, consisting of the single word, "Praschai," said to sound like a sneeze. The Otaheite Islander will twist the end of the departing guest's robe and then solemnly shake his own hands three times.

I keep on hand a full stock of collars, caskets, and robes. I also keep Metallic Caskets, and Steel Boxes and two hearses. Prompt service night or day. Residence Phone 29, office Phone 98. 45-1 yr Ad

How the Ant Travels.

Not only naturalists, but everyone who has watched ants, has wondered how they find their way to and from their nests. A French naturalist, M. Cornetz, who watched ants in Algeria, tells the results of his observations. The ant, he says, in its outward journey, proceeds throughout in the direction initially chosen; on its return the insect places its body at the same, and walks in the opposite direction.

On leaving the nest it places itself in a certain direction, and holds the same, no matter what obstacle it may meet with en route, and no matter what side tracks it may occasionally strike in order to seize some article of food or of structural value for its nest.

The return is effected directly, rapidly, and without hesitation, even if the ground covered has been swept in order to change its nature. The return is obviously determined completely by the outward trip.

Follow Me.

The Cigarette Captain says—"Follow me. Let me lead you!" "I will take every noble purpose out of your life."

"I will rob your boyish cheek of its bloom, your eye of its brightness and your eye of its erectness."

"I will pour the very life-blood out of your veins and arteries."

"I will hold your brain in an iron grip and prevent your brain from developing."

"I will prove to you my power to make invalids, criminals and fools."

"I will open the door of the saloon and lead you from there to the work house, the reformatory, the penitentiary and perhaps to the gallows."

"I will lead the way to the asylum for the imbecile and the insane."

"I will rob your body of its power to withstand disease. I am an active agent for the graveyard. Death and I walk side by side."

"I will dig your grave and lead you to it."

"I will mark your tombstone: 'Victim of the cigarette. Health, Character, Opportunities, and life lost!'"

"Boys, follow me, and I will do exactly as I have promised—I never fail."

Prisoners to be Paroled.

By a recent decision of the Court of Appeals 422 prisoners now confined in the penitentiaries of Kentucky are to be paroled. The decision applies only to those who were sent up under the law providing for an indeterminate sentence. The following Woodford county men gain their liberty as a result of this ruling: John Grimes, detaining a woman, served three years and four months; George Bryant, served fifteen months.

Chairman Daniel E. O'Sullivan deprecates any general feeling of uneasiness over the discharge of so many prisoners because, in the first place, under the old law most of them would have been released long ago by commutation of sentence, those sentenced for a year going free in nine months, whereas all these have served from one to two and sometimes more years; and, in the second place, because they go out under surveillance of the parole agent, liable to be returned at any time for violation of their paroles.

The Boy in the Country Town.

With a single exception, every member of President Wilson's cabinet began life as a boy in a small country town. Making the best use of early opportunities, they developed their talents by study, steadily working their way through school and in most cases through college toward that broader experience in the affairs of life which ultimately fitted them to become "cabinet timber." Their example should be an inspiration to those who being born and raised in a small country town, are apt to consider their surroundings as unfavorable. If a youth has ambition and energy he will surely find the gate of opportunity open. In no part of the world have there been finer illustrations of the development of self-reliance, prudence, concentration and those other traits of character than in the country town or village.—Christian Herald.

In Loving Remembrance

of R. B. Smith.

Long and hard he suffered,
He was great and sorely tried,
But at it all he never muttered,
Bravely fought and gladly died.

A tie is broke in our hearts,
A voice we loved is still,
A place is vacant in the home,
That never can be filled.

A father's love has ceased to flow,
To his dear baby son,
His form is buried in the ground,
His spirit beckons come.

A wife is left to mourn the loss,
A mother, brother, sister, dear
And as you bravely bear the cross
The angels linger near.

God's will be done,
We murmur soft and low,
As from the dear old cottage home
We sadly turn and go.

It is for the best,
And things must still go on,
But oh, how sad it is to know,
That one we loved is gone.

But why should we weep,
Why not cease and and dry our
tears?

For whom we loved is still asleep,
And lives beyond the skies.

There is nothing terrible in death,
'Tis but to cast our robes
away.

And sleep all night without a
breath,
To break repose till dawn of
day.

Oh, let my lamp be trimmed and
burning,

When the son of man doth
come,

My soul for him be yearning,
When Jesus calls me home

Just across the silent river,
Is a house not made with
hands,

And the peace which God has
spoken,

Softly rests o'er all its land.

And I hear sweet angels voices,
Chiming o'er the crystal sea,

Attorney General Garnett's reply to the published letter of Justus Goebel, appeared in the Louisville Courier-Journal last Saturday. It is plain, honest and positive, and refutes every insinuation of the infidelity charged in the Goebel letter. Mr. Garnett shows conclusively that he has been true to every trust, that he holds no position that he cannot successfully defend, and that Mr. Goebel appears to have wilfully tried to injure him. He not only shows a clean handed, but a clear headed handling of the State's interests in the litigation now pending; that the State and the counties through which the various railroads run that are resisting the increased assessments, but paying under a court ruling an increase in taxes that will amount to more than \$1,000,000 during the four years of the present administration, and that this is being done without taking from the State unnecessary fees for special counsel, or the counties giving up a heavy per cent. of the amount collected. He states that Mr. Goebel sought to have other attorneys employed, and paid large fees to assist in prosecuting the cases; that the same Goebel also sought a contract with the counties to employ special counsel on a 20 per cent basis. Both these propositions failed to meet the approval of the Attorney General, and for these reasons it appears that Mr. Goebel seeks to wreak vengeance. It looks a plain case of trying to destroy a public official rather than advance the public good. To our mind Mr. Goebel, all along, has been assuming responsibilities too distant for a private citizen. He appears a self appointed guardian of the people's interest, but his favorite attorneys failed to get in the case and get out of the people's taxes thousands of dollars because James Garnett's honesty would not stand for such a holdup. It ought to be plain to every honest man in the State that Justus Goebel is seeking to destroy the Attorney General; that his actions rests on ill will engendered by reason of the fact that the Attorney General refused to yield to his dictations depriving certain attorneys from receiving large fees from the State and 20 per cent. from the counties, when the legal department of the State was amply able to do the service and is doing it as well as if all Mr. Goebel's friends had been employed. Criticism of public officials may be expected, and few, if any, escape it, but to undertake to do so, rather than advise, apparently to satisfy a spite ought to be condemned by every honest man. Mr. Garnett may make mistakes as head of the legal department of this State, but one thing certain, we who know him know that he will not do a dishonorable act to gain Mr. Goebel's good will or to advance his own interest. He is honest, got the courage to stand firm for conviction and the ability and discernment to take care of the State's interests in any crisis that may arise.

Here's good will and wishes for Senator M. O. Scott, of Edmononton, whose unflinching efforts changed Adair county's senatorial relationship in this session of the Legislature just closed. This measure places Adair county in the Nineteenth district composed of Barren, Mercalfe and Adair and is Democratic from five to seven hundred. Monroe county takes position in the Sixteenth, which leaves that district with a substantial Republican majority.

Two years ago Senator Scott became interested in this measure and introduced it in the Senate. Mr. Dickey, representative from Barren, introduced it in the House. It passed the House, but met its defeat in the closing hours of the Senate by methods well-known to the people of this section. The call for help in presenting this measure for favorable action of the House was answered by Messrs. Mitchell and Bryant of this town, whose enthusiasm and persistency evidently aroused much interest in the measure that would not have been stirred had they remained at home. The fact is that those who favor the change can well afford to give three cheers to Senator Scott, three to Walker Bryant and three to S. H. Mitchell. "Keeping everlastingly at it brings success." The News heartily accepts its new relations and will endeavor to prove its faith by its works.

Locust Grove Stock Farm

For the Season of 1914 I will offer for Public Service, Ball Chief 3806, A. S. H. R. at

\$25.00

to Insure a Living Colt.

DESCRIPTION: BALL CHIEF, in color is a rich red chestnut, star and snip, right hind pastern white, 5 years old, 16 hands high, has fine head and beautiful long slender tapering ears, has an extremely long thin blade neck, that comes out of his perfectly formed withers in faultless fashion and tapers perfectly to his beautiful head, in which are set a pair of large clear expressive eyes. He has a high well set natural tail, which he carries at all times to suit the most fastidious. He has a good strong short back and a most excellent set of feet and legs. He is nicely broken and gaited, and goes all his gait in a most attractive manner.

BALL CHIEF has for his sire the champion Montgomery Chief 1361, by Bourbon Chief 976, by Harrison Chief 1606, he by Clark Chief. 1st dam Louise Cabell 5900, by Red Squirrel 53. 2nd dam Juella C. by Jewell Denmark 70, he by Washington Denmark 64. 3rd dam Dew Drop, by Artist 75. 4th dam by Cabell's Lexington. He has proven himself a breeder of high-class and is in every way worthy of your careful consideration.

Raven Bird 6550 A. S. H. R.

By Red Bird G. 1956, he by Joe Brown 1955, he by Cabell's Lexington 3234, he by Gist's Black Hawk. 1st dam Authalia Thompson 13038, by Ottawa 232, by Red Squirrel 53. 2nd dam Nellie Ray, by Thompson's Lexington, he by Cabell's Lexington. 3rd dam Stella Denmark, by Caldwell's Denmark. 4th dam Bonnie Brown, by Nat Brown 81.

Raven Bird is a beautiful mahogany bay full 16 hands high, 7 years old, he has the best of eyes, feet and legs, a beautiful head and neck, a very heavy well set tail, which he at all times carries to perfection. He possesses extreme speed, style and action, and the most perfect disposition of any stallion I have ever seen or handled. He has five distinct gait; and goes them all in a most attractive manner. You will note from his breeding that he has for his sire the famous old Red Bird, who has perhaps sired as many high-class show and sale horses as any stallion in Kentucky, and traces on his dam's side to Cabell's Lexington, conceded by all horsemen to be one of the greatest sires that ever lived. Raven Bird is one of Red Bird's greatest sons, and has proven himself an excellent breeder, and we have every reason to believe that, if he is given an opportunity he will make a reputation equal to that of his worthy sire. Service fee \$10.00 to insure a living colt.

Marion.

Marion is a black Jack with white points, 5 years old, 15 hands high, extra good length, heavy bone and foot, good head and ears. He has lots of substance, in fact he has all of the desirable features of a first-class Jack. He has proven himself very sure and a most excellent breeder. Service fee \$10.00 to insure a living colt.

I am prepared to take care of mares sent to me from a distance. Mares pastured at \$2.00 per month, or fed at \$10.00. In all cases money is due and must be paid when mares are bred to other stock, traded, parted with or removed from the neighborhood. All stock will receive my personal attention, and due care will be taken to prevent accidents or escapes, but will not be responsible should any occur.

Obituary.

On Monday, March, 2nd, at 7:30 a. m., death entered the home of Mrs. R. P. Breeding and claimed as his own Miss Addie Bardin, a young lady who had for five years made her home with Mrs. Breeding.

A victim of tuberculosis, the end was not a surprise to her many friends, who could only watch with sad hearts the going out of a life so endeared to all.

Born in Adair county in 1892 She came to Breeding five years ago and from the first made many warm friends.

She leaves a father, step mother, one brother, a half brother, two sisters and a host of friends.

During a series of meetings conducted here by Rev. R. L. Tally in 1910 she joined the Methodist Church South and to the end lived a consistent christian.

Since the organization of the Woman's Foreign Missionary Society at this place she has been an active member and for some months before her death had been President. She never missed an official session of this society or any religious service unless it was a physical impossibility to be present. Only one month before the end came she listened to her pastor deliver his monthly sermon, although at the time she was scarcely able to be up.

Funeral services were conducted from the Church Monday at 3:30 p. m., by her pastor, Rev. Caughron. A large number of friends were present to pay the last tribute of respect to one whom they had loved and honored. Tuesday the remains were conveyed to her father's home near Fairplay for interment.

The church has lost one of its strongest members, The Missionary Society a faithful President, the Sunday School a devoted scholar and the community at large a noble, religious character. One whom it regret to give up. But we know that she is at rest, for those at her bedside when the end came heard only words of praise for the Savior whom she so truly loved and served during her brief stay on earth. In years to come the memory of her unselfish devotion to all that was good and pure will cheer many sad hearts, and make lighter the burden of many who are weary.

It is such lives as this that really count and are worthy of being imitated. Such lives as this that are uplifting and ennobling and such lives as this that will finally be the means of bringing the world to that high plain of Christian manhood and womanhood for which we have so often heard her pray.

How truly can it be said of her in the language of Paul, "She has fought a good fight, she has kept the faith, she has finished the course, henceforth there is laid up for her a crown of righteousness."

A Friend.

The Forty Year Test.

An article must have exceptional merit to survive for a period of forty years. Chamberlain's Cough Remedy was first offered to the public in 1872. From a small beginning it has grown in favor and popularity until it has attained a world wide reputation. You will find nothing better for a cough or cold. Try it and you will understand why it is a favorite after a period of more than forty years. It not only gives relief—it cures. For sale by Paul Drug Co.

Hatching With Hens.

The best results in natural hatching will be obtained when the hens are set on the ground. Repeated experiments have demonstrated that where hens were set in this way stronger, bigger chicks were hatched than from those set in nests off the ground. If it is not convenient to build out door nesting coops, or there should be no shed available with a dirt floor and the hens have to set in nests with wooden bottoms, writes J. E. Dougherty, in a recent bulletin of the California experiment station, cut a square on fresh sod and lay it in the bottom of the nest box just before the eggs are put in. They put on top just sufficient straw to hold the eggs in the center. The hens should be allowed to sit on china eggs for a few days before giving them good eggs, in order to let them get used to the coo, and also to see if they are really in earnest about wishing to sit. Just before putting the good eggs under them, the hens should be dusted with an effective lice powder and a little of the powder sprinkled over the nest. As soon as the hens have brought off their chicks, the egg shells and the old nesting materials should be cleaned out.

We would be pleased to send the Daily State Journal, Frankfort, from now until the first of April for 50 cents. Or better still we will furnish the Adair County News, one year and the Daily State Journal until April 1st for \$1.25. If you want to keep in touch with the doings at Frankfort while the Legislature is in session, you should have the State Journal.

Montpelier.

Mr. Browder Hudson, a well-known citizen of this community, was carried to Lebanon, February 28th, for an operation, but he was not able to stand it. He grew worse and worse and on March 4th, the death angel came and claimed him for his own. He was a devoted christian, a member of the Baptist church at Liberty. He leaves a wife and three children and a host of relatives and friends. The funeral services were held Friday afternoon, at his home, conducted by Bro. Beck, in the presence of a host of friends and relatives. After which the remains were laid to rest in the family burying ground.

The health of this community is not very good. There is quite a lot of la grippe.

Sensible Women Know Foundation of Health

As health talks to women become more general, both in the newspapers and on the platform, the mass of women are beginning to realize what the more cultivated have always known, that good health cannot be found in a powder box. The externals of health may be obtained in that way, but the basis of health lies deeper, and yet is just as easily obtained.

The most important thing that a woman can do for herself, and about which she is often most neglectful, is to watch the condition of her stomach and bowels. The weary eyes, the bad breath, the frequent headaches, the general air of lassitude is nine times out of ten the result of constipation or indigestion, or both. Many simple remedies can be obtained, but the best in the estimation of most women is Dr. Caldwell's Syrup Pepsin. It is mild, pleasant to the taste and exactly suited to her needs. It is far

superior to salts, cathartic pills, waters, etc., which are entirely too violent.

Women should see to it that they have at least one movement of the bowels each day, and when showing any tendency to constipation should take Dr. Caldwell's Syrup Pepsin in the small dose prescribed. A brief use of it will so train the stomach and bowel muscles that all forms of medicine can be dispensed with. These opinions are voiced by thousands of women, after personal experience, among them Miss V. L. Moore, 22 Calborne St., Nashville, Tenn., and Florence Cook, Lucas, Ky.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

makes his regular trip through here every Thursday.

Mr. Larue Hurt won the prize for bringing the most eggs to the store during the month of February. He brought, during the month about 1143 eggs. The premium was a fruit set.

Poultry Notes.

The day before shipping live fowls, feed hard grain.

Satisfying the appetite adds greatly to the thrift of the flock.

It is estimated that five chickens will yield a pound of feathers.

Cleaning dropping boards is a chore that cannot be done too often.

Whatever interferes with growth retards and diminishes egg production.

On cool, damp, rainy nights close all the ventilating windows of the hen house.

The very first thing to do on noticing signs of illness in a bird is to isolate it.

The best nests for laying hens is close to the floor, darkened, and easily movable.

Feed plenty of charcoal, as it is one of the best things for keeping the poultry healthy.

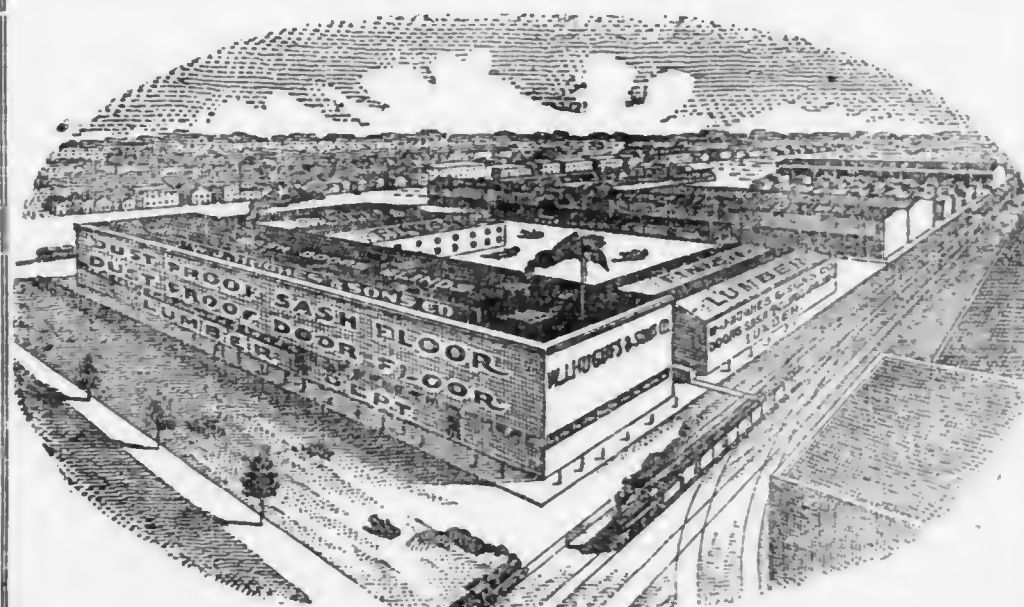

Eggs cannot be produced without nitrogenous food in some shape. Bones are absolutely essential.

Do not forget that your fowls need green food. If it is impossible to give them a change of yard or runs, see that they get some kind of green food during the daily feed.

Plans to Fly the Sea.

Alexander Dumas, a French engineer, has placed before the French Aerial Navigation society the result of his studies of the problem of trans Atlantic aeroplane flight. Under the plans of M. Dumas, the trip would take 62 hours, exclusive of stops, of which there would be two, the Azores and Newfoundland, for fuel and provisions.

The machine advocated by Dumas would be a huge aeroplane having an average speed of 500 miles an hour, at a height of 16,340 feet. A crew of 10 men, total weight of the outfit 20,000 pounds carrying four 200 h. p. engines and 9,260 pounds of fuel.

COULD SCARCELY WALK ABOUT LOUISVILLE

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentle-acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.

There was a carpet tacking one day last week at Mr. Otha Helm which was enjoyed by a crowd of young folks.

The excitement created by mad dogs in this section has about calmed down. At one time it was reported that a mad dog was in the neighborhood, and men with their guns went in pursuit of the dog. One man brought his dog to track him up.

The Bibee steam, saw and grist mill here is doing a good business sawing and grinding,

and selling meal at \$1.00 per bushel right under the nose of the Rows X Roads man, who asserts that he who sells meal at \$1 00 per bushel will hardly arrive at the pearly gate. He seems to contend that corn bread is high at that price but says nothing about beef at 12½c per lb., being high because we can not afford to eat it much. No extortion on the man that don't eat it. The Bible says we must not live by bread alone.

Chronic Stomach Trouble Cured.

There is nothing more discouraging than a chronic disorder of the stomach. Is it not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wakelee, Mich., "I bought a package of Chamberlain's Tablets, and since using them I have felt perfectly well. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by Paul Drug Co.

Owensby.

Most of the people in this section are barking and sneezing.

We see there is a bill before the Legislature to abolish the office of assessor, creating a tax commission of three members, drawing a salary of \$5,000. Why not abolish the assessor's office and let the magistrate take the list?

We are glad to know that Bro. Hadley is now behind the counter handing out the good things of life.

Mrs. D. T. Tarter, of Jamestown, happened to a very painful accident recently, by dropping the ironing board on her great toe.

D. G. Grider sold a 30-acre farm to Elihu Collins, for \$600.

On Feb., the 28th quite a lot of the young people in and around Jamestown, with Miss Annie Vaughan, of this place, took a boat ride to Burnside and back.

Mr. Elihu Collins is in very poor health.

On Feb., the 26th, 1914, Mr. J. F. Clayton and Mrs. Ethie Brown, daughter of Mr. J. K. P. Aaron, drove to the home of Rev. John Wooldridge, at Jamestown, and were married.

Mr. John Vaughan and sister, Miss Annie, are on the sick list.

Aunt Nancy McFarland, the oldest person of this neighborhood, is in feeble health.

Born, to the wife of Ray Gaines, a son—Carson Woodrow.

An artist once painted a beautiful picture, but by some accident, just as he was finishing it, some blot got on to the sky. To rub them out without spoiling the picture would have been impossible. But instead of fuming and fretting over the matter, he painted wings and beak to each blot, thus converting them into birds, and in so doing, gave the

picture an added value. That is a good way to deal with troubles.

Give them wings and let them fly away. In our judgment, if many people would observe this, their troubles would be less chronic.

Mr. E. L. Reece will leave in a short time for Louisville and New Albany, where he expects to purchase a lot of up-to-date machinery for his woolen mill. He hopes to be better prepared to serve the public, and for this to be a banner year.

Revs. Tarter and Withim are conducting a series of meetings at Bethlehem. Miss Irene Haynes, of Dent, is the organist.

NOBLE PEACOCK

One of the best sons of the Grand Old Sire, Jordan Peacock, will make the season of 1914 at Gradyville, Ky, and will insure a colt for the Low Price of \$10.00

NOBLE PEACOCK has proven himself to be the Best Breeder in Southern Kentucky. His get last year wore the blue tie over every other horse colt that was shown at the Columbia Fair, as those who were there and saw that beautiful little Chestnut Missie that I paraded in front of the Grand Stand that made the other colts take a back seat and sit down till the little Missie graduated is evidence that NOBLE is the Best Breeder, and there were a number of colts by some of the noted horses of the country. Some of them were sired by stallions that made the season at \$25, and there were two in the lot that the season cost \$50. Now what is the use to pay from \$25 to \$50 for a colt when you can get a better one for \$10?

My plan is to live and let live. Just think of the wonderful Peacock mare that was shown at the Columbia Fair last year by Wilson Bros., and won every time she entered the ring. She won the \$500 prize for the best stallion, mare or gelding. Also \$50 for the most beautiful stallion, mare or gelding, and for the best saddle mare, 4 years old and over, and she's a Peacock, too.

The stock that you have heard some stallion owners say couldn't do nothing, but when they come to a show-down they are always in the money and especially when you have one to sell.

Description of NOBLE PEACOCK:—He is 6 years old, 15½ hands high—weighs 1,050 pounds, is a beautiful Mahogany Bay, goes all five of the saddle gaits with both ends up as high as you ever saw a Peacock. He carries the best natural show tail I ever saw. Has a long goose neck and a beautiful head and a large, brown eye and is strictly sound in every way.

NOBLE'S breeding, by Jourdan Peacock No. 1148, by Peacock 493, by Blue Jeans No. 3. Jourdan's dam, Lena Rivers, No. 760, by Cabbell's Lexington, by Gist Black Hawk, by Blood's Black Hawk.

Noble's first dam, by Artist Jewel, No. 882, by 2nd Jewel, 84, by Jewel Denmark 70, by Washington's Denmark, 64. Noble's 2nd dam by Cromwell Denmark, No. 73, 3rd dam by Artist No. 75.

There is not a better bred stallion living than Noble Peacock, and not one in the world that has as much rich blood in him as Noble, that stands at as low a price as this fine young horse.

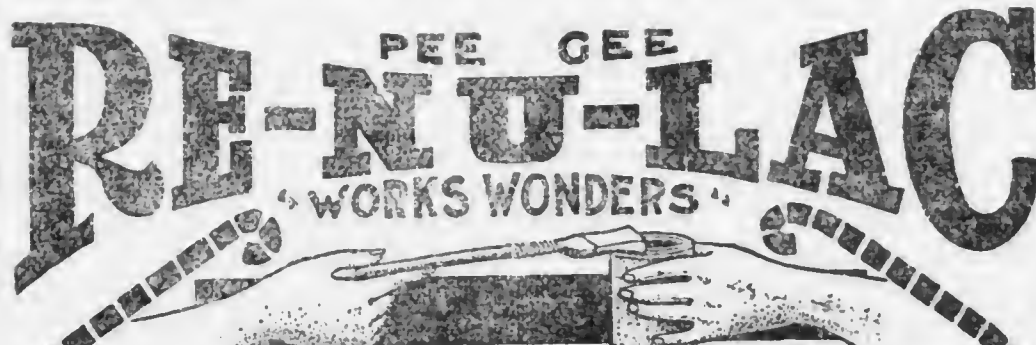

3 JACKS.

I will stand 3 first-class Jacks at \$10.00 to insure a mare with foal. These are all first-class Jacks, all black with size and style.

Now if you want to breed to the best, come to my stables. I have been in the breeding business 35 years and know how to handle this kind of stock.

Money is always due when mares are traded or removed from the neighborhood. Pasture 10c per day or fed at cost of feed.

Respectfully,
W. L. GRADY.

Every dollar's worth of Royal Fence on a farm increases its selling value many-fold

Of all farm improvements, woven wire fence costs the least and enhances value most

Royal Fence is made of heavy, hard, stiff steel wire, the strongest and best possible to produce for fencing purposes. The stay or upright wires are continuous from top to bottom of the fence, and secured to the horizontal wires by the Royal loop. Being wrapped around the horizontal wires entirely within the tension curves, the stays are rigidly held in place and side slipping prevented. The whole forms a fabric of the greatest strength and ample flexibility, the best of the continuous stay fences.
